

CUTTING EDGE MANUFACTURING FOR INDUSTRY ON THE CUTTING EDGE: SERVICES, A COMPLETE SOURCE

Iafrate Machine Works is highly regarded as your complete source – a full service facility offering a turn key solution that offers a total system for production machining/tooling manufacturing. IMW is committed to supply quality products at a competitive price meeting "Just in Time" requirements.

CNC MACHINING CENTERS

IMW is committed to these principles because we believe a company's success is dependent on the relationship with its customers. We are especially aware of the needs to respond quickly to customers' requests for quotations and to establish appropriate delivery lead times to comply with scheduled due dates.

CNC TURNING CENTERS

CNC is a versatile system that allows you to control the motion of tools and parts through computer programs that use numeric data. CNC can be used with nearly any traditional machine. CNC Turning Centres, Vertical & Horizontal Machining Centes give the capability to perform essentially any machining operation at the highest accuracy and repeatability. IMW offer the finest in CNC Turning Center solutions.
